DETAILED ACTION

Conclusion

Allowable Subject Matter

Claims 5-11 and 13-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 5-11 and 13-14 are allowed over prior art because none of the prior art disclosed or suggested showing the particular structure and/or operation recited in these claims namely:

Claims 5-10 call for, among others, "a second stage operational amplification unit coupled to the first stage operational amplification unit, for providing a second gain: wherein a first feedback loop is formed by one of the output stages chosen by a first control signal and the first feedback resistor corresponding to the chosen output stage, and a gain of the variable gain amplifier corresponds to the first and the second gain", in combination with the rest of the limitations of the claim(s).

Claims 11 and 13-14 call for, among others, "the pre-drive stage comprising a first output node and a second output node", in combination with the rest of the limitations of the claim(s).

Claims 15-22 call for, among others, "a plurality of switches, coupled to one of the feedback loop at one end, and the switches coupled to a later stage at another end", in combination with the rest of the limitations of the claim(s).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hieu Nguyen whose telephone number is 571-272-8577. The examiner can normally be reached on M-F 8-5.
